Payment Methods

We have the following secure payment methods available for you:

Credit and Debit Cards

We accept: Euro/Mastercard, Visa and American Express cards. For your added security, we check the credit card security number. For Euro/Mastercard and Visa, the number consists of the last three digits after the card number in the signature field on the back of the card. For American Express, you will find a 4-digit number printed on the front of your card to the right above the credit card number. You will receive more information about Verified by VISA and Mastercard SecureCode when completing the payment.

Please Note: From March 2022, card issuers in Europe have implemented 'Strong Customer Authentication' for online transactions, which includes validating the cardholder's address and telephone number. In addition, a one-time authentication code may be sent to the cardholder by SMS which will need to be entered to complete the transaction.
