Good Morning Szilvia,

(Staff)

I am advised that the only person currently certified to drive the forklift is self-solating since yesterday. Apparently it's not a simple piece of equipment to operate as it bends to take pallets off racks with narrow aisles.

There will be a driver there tomorrow until 2pm. Alternatively, would it be possible to deliver this on a truck with a tailgate lift? The pallets weigh less than 200kg and they have a pallet truck.

Kind regards,

Neil Corke
