

FALK CULINAIR

Handcrafted in Belgium, Falk copper cookware is the perfect present for the foodie in your life. Falk Culinair's designers have combined a plate of copper with a thin sheet of stainless steel under high pressure to produce a high-quality bi-metal copper product. The result: all the superior conductivity advantages of copper, but with a strong, modern and durable finish. Heat spreads evenly, allowing you to braise, fry, and sear food to perfection. It's little wonder that they're the choice of professional chefs. All designs come with a lifetime warranty too.
