

Good morning Steve,

There are four boxes heading your way from Belgium this week:

<https://www.dhl.com/es-en/home/tracking/tracking-express.html?submit=1&tracking-id=3580923802>

In order of most straightforward:

1. There are two small boxes that don't need to be unpacked unless the boxes are damaged. Both of these are for order 204061 to Australia, which I have all the information I need to book collection of for Monday and will send labels for later.
2. The heavier of the two 60 x 40 x 40cm boxes should contain 15 x INO2566SFs which are for UK stock. Please check and confirm the count.
3. The remaining box contains the following labelled items:

107603

-----

1 x INO2520SF: Classical Range 14cm Casserole

107611

-----

1 x INO2582SF: Classical Range 28cm Stew Pan

204043

-----

1 x SCS2505SI: Copper Core Range 28cm Frying Pan

204044

-----

1 x SCS2504SI: Copper Core Range 24cm Frying Pan

204046

-----

1 x SCS2504SI: Copper Core Range 24cm Frying Pan

1 x SCS2561SI: Copper Core Range 24cm Sauté Pan

204052

-----

1 x SCS2568SI: Copper Core Range 24cm Saucier

I am attaching the packing notes for the Europe Copper orders, one of these needs a copper core lid, which you should have, and one is going to Switzerland. This also includes the outstanding pieces for UK orders 107603 & 107611.

Kind regards,
